PROFILE

Full Stack Software Developer with hands-on experience in designing and developing scalable web applications. Skilled in building responsive user interfaces, backend systems, and database-driven solutions using modern development technologies. Experienced in developing real-world projects with authentication, API integration, database management, testing, and deployment workflows. Strong understanding of software engineering principles, SDLC, debugging, and performance optimization with a focus on delivering reliable and efficient applications.

Education

2024 – 2026	Vidya Academy of Science and Technology, Thalakkottukara Master of Computer Application, CGPA: 9.14 /10.0
2021 – 2024	St. Mary's College, Thrissur Bachelor of Computer Application, CGPA: 8.29 /10.0

Professional Experience

12/2025 – 03/2026 Kochi	Software Development Intern - ODIN Technologies - Developed and deployed full-stack applications using React.js, Next.js, FastAPI, and NestJS. - Built RESTful APIs and integrated AI/LLM features for chatbot and automation systems. - Implemented WhatsApp integration and WhatsApp agent backend systems for real-time communication. - Debugged, tested, and optimized applications to improve performance and reliability. - Collaborated in Agile teams and used Git & GitHub for version control and code reviews.
----------------------------	---

Project

06/2026 – Present	DevArchitect AI - Developed an AI-powered full-stack developer platform using React.js, FastAPI, and PostgreSQL to automate backend development workflows and project generation. - Implemented AI-driven requirement analysis for generating database schemas, REST APIs, backend modules, documentation, test cases, and code review insights. - Designed scalable backend architecture with authentication, service layers, Docker-based deployment workflow, and automated testing support to improve software reliability.
12/2025 – 03/2026	AgriVision WeedSense - Developed a full-stack agricultural intelligence platform using React.js and Django with ML-based image analysis for precision farming recommendations. - Implemented YOLOv8, OpenCV, NDVI computation, and GIS-based zone mapping for weed detection, vegetation analysis, and data-driven insights. - Built automated reporting, recommendation workflows, and optimized system performance through testing, debugging, and deployment improvements.
07/2025 – 10/2025	ReliefHub - Developed a full-stack disaster relief management platform using Django, HTML, CSS, JavaScript, and Bootstrap to streamline emergency coordination workflows. - Implemented donation management, request tracking, resource allocation, role-based dashboards, and secure payment integration with real-time transaction processing. - Designed and optimized scalable backend modules with database management, testing, debugging, and performance improvements to ensure system reliability.

12/2023 – 03/2024

TownLet

- Developed a full-stack Android application using Java, XML, PHP, and MySQL to manage community services, issue reporting, and user requests.
- Implemented role-based modules, request tracking, notification workflows, and database operations for efficient communication between users and administrators.
- Performed application testing, debugging, performance optimization, and documentation to improve system reliability and maintainability.

Virtual Internship

06/2025 – 08/2025

Cybersecurity

Cisco Networking Academy's Virtual Internship in Cybersecurity, gained practical skills in network security, threat detection, and defense strategies

Technical Skills

Programming Languages	Web Technologies	AI Tools & Technologies	Concepts
Python	HTML	LLM	OOPS
Java	CSS	OpenAI API	REST APIs
C	JavaScript	YOLOv8	SDLC
	React.js	OpenCV	Agile
Backend & Database			Debugging & Testing
Django	Tools & Platforms		
MySQL	Git		
	GitHub		
	VS Code		

Certifications

- Advanced Python Programming for Competitive Coding - Manifold Institute
 - C Programming Training - eSpoken Tutorial Project, IIT Bombay
- HTML Training - EduPyramids, SINE, IIT Bombay
 - Introduction to Internet of Things - NPTEL

Language

- English
- Malayalam
- Hindi
- Tamil
